TAX CLINIC: BASICS & LOGISTICS

1. When is the APUS Tax Clinic?

APUS Tax Clinic 2023 runs March 20 - April 20.

Monday to Friday; various appointment days and times available.

2. Am I eligible to book an appointment?

You may be eligible if you meet all of the following: you are a part-time student, you have no or modest income, you have a simple tax situation, and you will have documents needed in advance of your appointment.

1. You are eligible **if you are a part-time student.**

APUS members are current part-time undergraduate students at the University of Toronto (TIP: If you see APUS on your ACRON invoice - you are a member).

AND

2. You have a **modest income**

The following table provides a guideline to determine what is considered a modest income. In general, a modest income means the total family income is less than the amount shown in the chart below, based on the size of the family.

APUS recognizes Toronto's high cost-of-living and you may be eligible beyond the sample chart below. If you meet all other eligibility, you are encouraged to request an appointment and APUS will see what's possible.

Suggested income levels	
Family Size	Total Family Income
1 people	\$35,000
2 people	\$45,000
3 people	\$47,500
4 people	\$50,000
5 people	\$52,500
More than 5 people	\$52,500 + \$2,500 for each additional person

AND

3. You have a **simple tax situation.**

In general, a tax situation is simple if an individual has no income or if their income comes from these sources:

It honours volunteers' time. And available spots will be offered to someone else who needs. Thank you.

13. Can I file taxes for previous years (e.g. 2021, 2020, 2019) through APUS Tax Clinic?

Did you know? Full-time UofT students may book appointments for 2021 taxes thanks to [UTSU](#).

- Self-employment income or employment expenses
- Business income and expenses
- Rental income and expenses
- Interest income (over \$1,000)
- Capital gains or losses

16. I'm self-employed and/or perform "gig work." Can I file my taxes through the Tax Clinic?

Self-employment is considered a complex tax situation and not provided through APUS' participation in CVITP. Ineligibility includes students operating their own businesses. Ineligibility may include students who drive for Lyft/Uber/Uber Eats/Doordash etc.

While APUS can't file taxes for gig workers - we work in solidarity with student worker rights and the end to precarious work.

17. Who are the people helping me file my tax return?

Great volunteers. Of course.

Volunteers are a diverse mix of UofT students and alumni motivated to support part-time students. Volunteers (UNPAID) donate their time and talents to APUS mission and you. Volunteers are trained via CRA and APUS. Including in areas of taxes, confidentiality and privacy.

Thank you for treating volunteers with kindness, patience, and dignity in return.

18. Is there a cost to filing my taxes with the APUS Tax Clinic?

No. Completely FREE.

TAXES: THE STRESS OF IT ALL

19. I'm stressed, scared, intimidated, bored by taxes? Where do I start?

Start with APUS.

We get it. Money and stress go together. Taxes can exacerbate stress, emotional toil, feelings of rush and panic, math anxiety, communication stress, or the stress of one more deadline facing you as a student.

APUS Tax Clinic exists to help alleviate the stress of filing and deadlines by teaming you with trained volunteers to walk you through the steps and cheer you on. And as a free clinic APUS hopes to help alleviate the financial stress of filing taxes.

Tax Clinic volunteers bring their mix of enthusiasm, confidence, and even fun to help students see taxes as do-able. We hope after using APUS Tax Clinic you are a little less intimidated by taxes and have even increased your financial and tax literacy some. Well done.

20. Do I have to file taxes? I don't have income or owe, should I still file?

Filing a return each year (even if you didn't have any income), makes you eligible to receive certain tax credits and benefits that you wouldn't be able to get otherwise.

A lot of students don't see the point of filing taxes while in school if they aren't making enough income. However, by filing you may be eligible for money via refunds, credits, benefits.

Tax refunds, tax credits, GST/HST credits, RRSP contribution room, and student loans (claim interest on qualifying student loans this year, in future, or transfer).

TIMELINES & DEADLINES

21. When is the earliest I can file my 2022 taxes?

You are able to file your income tax and benefit return for 2022 starting on February 20, 2023.

No need to wait for the APUS Tax Clinic. Self-file for FREE using [UFile](#) starting February 20 and available year-round.

22. When is the deadline to file my 2022 taxes?

For most Canadians, the deadline to file returns (and pay taxes) for 2022 is April 30, 2023.

Because this date is a Sunday, a return will be considered filed on time if the CRA receives it, or it is postmarked, on or before May 1, 2023.

It's never too late to file your return.

You can still file a tax return even if you miss the deadline.

If you file late, you may be charged a penalty, but you can try to request interest relief.

If you don't owe taxes, or receive a refund, you won't be charged any fees or penalties for filing late.

Advised to start early when ready.

23. If I'm owing, when is the deadline to make payment?

For most Canadians, the deadline to pay their taxes and file their return for 2022 is April 30, 2023.

Because this date is a Sunday, a return will be considered filed on time if the CRA receives it, or it is postmarked, on or before May 1, 2023. A payment will be considered made on time if the CRA receives it, or a Canadian financial institution processes it, on or before May 1, 2023.

Special note, self-employed tax returns are due June 15, 2023 but any balance owed is still due on April 30, 2023. Advisable to start self-employed tax returns before April 30 to calculate any balance owed and avoid late-payment penalties.

UNDERSTANDING TAXES: DOCUMENTS & INFO

24. What is a “Notice of Assessment”?

A notice of assessment (NOA) is an evaluation of your tax return that the Canada Revenue Agency sends you every year after you file your tax return.

It includes the date CRA checked your tax return, and the details about how much you may owe, or get as a refund or credit. The NOA also gives your Registered Retirement Savings Plan (RRSP) deduction limit for that year.

Your NOA is an important document. Keep it with your tax records.

25. I didn't get my T4. Or, my employer didn't give me a T4. What can I do?

Typically arrive by mail by end of February.

If your T4 or any tax slips are late or lost, ask your employer to reissue.

Employers are required to issue T4s. Employers issue to the employee mailing address on file. The most common reason T4s don't reach employees is when an employee or ex-employee moves without updating their information. Contact your Employer/previous Employer to ask and update. You may be directed to an online portal.

If you do not expect to get from your Employer, there are options via the CRA or CRA guidance on estimating income without tax slips. See CRA guidance [here](#).

26. I'm missing documents that I need to file. What can I do?

If information is missing to file your claim, your appointment will end.

You will need to bring it to another scheduled appointment if a spot is available. Or, book and bring to another clinic if no spots are available

Common documents needed: if you have not received a T4 contact your employer, for rent receipts contact your landlord, for tuition records see ACORN.

27. I made a mistake on my taxes. What do I do?

Mistakes happen, even on tax returns.

You can contact CRA with any changes or updates needed.

Generally, wait until you receive your notice of assessment before asking for changes to your return.

You can request a change to your tax return by amending the amount entered on specific line(s) of your return. Do not file another return for that year, unless the return you want to amend was a 152(7) factual assessment.

You will need to contact CRA for any change. APUS and APUS Tax Clinics are not able to correct after submission at time of appointment.

See more on how to [change a return](#).

28. Help. The CRA is contacting me about errors, audits or assessments about taxes I completed with APUS Tax Clinic? Can APUS help?

No. Sorry.

Volunteers help, and it's clients who are responsible for accuracy of information and filing per CRA.

29. I filed my taxes with APUS in the past, do you still have a copy?

No.

APUS does store any individual tax information electronically or on site past the time of filing.

30. What of my tax information is kept on file with APUS? For how long?

No personal tax information is kept on file with APUS. If any client information is collected or used in the process of filing taxes it is promptly destroyed electronically or physically per protocol. Clients retain any and all copies. Absolutely no records are held electronically or on site upon Tax Clinic end date.

31. Can you tell me more about the CRA CVITP program?

The Community Volunteer Income Tax Program (CVITP) has existed since 1971 and is a longstanding partnership between the Canada Revenue Agency (CRA) and community organizations and their volunteers. Helping thousands of people with modest income file free.
